

BCS Enrollment Lottery & Admissions Processes/Procedures

The lottery is usually held on the first Saturday after the close of the Open Enrollment period. While parents who submitted enrollment packets are welcome, attendance at the event is not required in order for your child(ren) to be entered into the lottery. Lottery results are emailed to all who submitted enrollment packets.

California Education Code and our charter with the Santa Clara County Office of Education (SCCOE) govern the enrollment procedures. Bullis Charter School (BCS) accepts applications for any student residing in California and there is no application fee.

If there are more applications than spots for a specific grade level, then enrollment is determined by a public random drawing, also known as “the lottery”, that is held following the close of the Open Enrollment period. SCCOE authorized enrollment preferences for this public lottery are applied based on the following hierarchy within each grade level:

- 1) Siblings of current BCS students who reside within the boundaries of the Los Altos School District;
- 2) Children of BCS staff members who reside within the boundaries of the Los Altos School District;
- 3) Children who reside within the boundaries of the Los Altos School District;
- 4) Siblings of current BCS students who reside outside of the boundaries of the Los Altos School District;
- 5) Children of BCS staff members who reside outside of the boundaries of the Los Altos School District;
- 6) All other applicants who reside within California.

BCS offers equal access to applicants through our enrollment lottery regardless of their actual or perceived disability, gender, gender expression, gender identity, nationality, race or ethnicity, religion, sexual orientation, or any other characteristic that is contained in the definition of a hate crime or association with an individual who has any of the aforementioned characteristics. Additionally, BCS offers a comprehensive education program that is committed to meeting the needs of all students regardless of ability level or learning needs including but not limited to: Special Education, Gifted and Talented, and English Language Learners.
